Applicant is: <i>(circle one)</i>	Owner	Tenant	Agent of:
Type of Service: <i>(circle one)</i>	Residential	Commercial	Industrial
Did the premises have previous service? <i>(circle one)</i>	Yes	No	

Farmers Water Co. charges a \$35.00 establishment fee to establish water service. This fee will appear on your first cycled bill and will be due and payable with your first month's payment. The Customer requests water service from Farmers Water Co. (FWC) at the address indicated above. Once service is established, the services provided pursuant to this Agreement shall continue until cancelled by FWC or until the Customer requests to disconnect service. During all times in service, the Customer agrees to pay for water service at the rates approved by the Arizona Corporation Commission. The Customer also agrees, in the event of payment default for any amount due, to pay the amount owed for water service and any additional charge equal to the cost of the collection, attorney's fees, and court costs. The Customer also acknowledges that, although FWC endeavors to provide the best water service available with adequate pressure and volume at all times possible, no guarantee is made thereto. By accepting service, you are acknowledging that you are responsible for all water charges incurred until you notify FWC to discontinue service. Forty-eight (48) hours' notice is required for disconnect.
